

By combining vintage styling with technology, Lennox Hearth Products has produced an efficient and attractive heating appliance. The cast iron construction and fine craftsmanship of the Traditions™ pellet stove recall an era when quality reigned. For added safety the photo electronic eye monitors the flame during the automatic start up and shut down cycles and its fully thermostatic operation maintains a constant, comfortable room temperature. You will appreciate the value of Traditions.

TRADITIONS™
BY LENNOX HEARTH PRODUCTS

FEATURES

Durable cast-iron construction
Black metallic paint finish
Photoeye technology
Ash pan
Microprocessor control
Fully automatic on/off thermostatic operation
Standard FastFire™ self ignitor and wall thermostat with multiple heat output levels for maximum comfort
Warranty: two years electrical; 20 years limited
Advanced safety system

OPTIONS

Gold trivet
Log set
Three rich enamel colors: Hunter Green, Ebony Black, Mojave Sand, or Painted Metallic Black

T300P-2 PERFORMANCE

BTU range	13,000 - 32,000*
Burn time	14 - 34 hours **
Overall efficiency	85% ***
Fuel capacity	50 lbs.

SPECIFICATIONS

Shipping weight (lbs.)	363
Width (inches)	28-3/4"
Depth (inches)	26-1/2"
Height (inches)	28-3/4"
Flue size (inches)	3"

WALL CLEARANCE

A - Back wall to stove	2"
B - Side wall to stove	6"
C - Corner-back wall to stove	2"

WALL CLEARANCES

Before installation, we recommend you consult your local building official. If you use an approved protected wall system, clearances cannot be reduced further. (Note: minimum clearance for alcove from floor to ceiling is 48").

Check with your building official for requirements and approvals. "A" and "B" dimensions at right also apply to alcove installations. (Again, check with your dealer for alcove clearances).

Specifications and clearances are for reference only and are subject to change without notice. Square feet heating capacities are approximations only. They will vary depending upon the level of insulation, climate, house design, ceiling height, ambient outside temperatures and how the stove is operated. See owner's manual for exact information.

The Traditions™ T300P-2 is approved for manufactured (mobile) home installation. This stove is manufactured and shipped with the UltraGrate™ installed, which enables it to burn both "Premium" grade and "Standard" grade wood pellet fuel with up to 3% ash content as defined by the PFI.

* BTUs vary with pellet type.

** The burn time will vary with size and type of fuel being used.

*** Traditions test results. Results based on EPA test methods. Efficiencies vary with fuel feed rates. 0.43 grams/hr, EPA exempt (Fed. emission standard is 7.5 grams/hr Max.)

Safety tested by: Warnock Hersey, Vancouver, B.C. Approved to: UL1482, UL907, ULCS627, CSAB3662, ULCS628, ASTM E 1509-93. UltraGrate™ U.S. patent #5137010, 5383446.
